# ABOUT US

Today, due to the fast pace of work, we sometimes do not even have the opportunity to take a break. Capture the moment with Alfacup disposable paper cups. You can safely sip your hot coffee. This colorful and soft cardboard cups will even make your coffee more delicious.

As Alfacup company, we produce cardboard cups in various sizes. You can easily use our cardboard cups in your living spaces, crowded organizations and workplaces. We check every stage of production through the necessary quality control processes. Therefore, our cardboard cups never leak or smell. The raw materials we use in production have the necessary certificates for human health. We use the latest technology printing and cutting machines.

Make presentations to your staff in crowded workplaces, to your guests in your seminars and living spaces with our cardboard cups. A lively and interesting look with color printing... If you want, you can print your company's logo and increase your recognition.

## **The Achievements that We Speak for Ourselves**

- many years of experience,
- wide customer portfolio,
- always open to new ideas,
- always competitive prices.

## Disposable Paper Cups

Cardboard cups are materials that make our lives easier. Environmentally friendly, easily biodegradable. They are produced in different sizes depending on the beverage consumed and its quantity. As Alfacup, we first analyze your needs correctly. There is complete harmony between our expert sales staff and our production staff. We care about your positive or negative feedback to us. We establish long-term cooperation with our customers.

We can also establish solution-oriented partnerships with you. Why not...?
